

Fishery Conservation and Management

§ 622.74

rock from the proposed aquacultured live rock site, specification of the port of landing of aquacultured live rock, and a site evaluation report prepared pursuant to generally accepted industry standards that—

(A) Provides accurate coordinates of the proposed harvesting site so that it can be located using LORAN or Global Positioning System equipment;

(B) Shows the site on a chart in sufficient detail to determine its size and allow for site inspection;

(C) Discusses possible hazards to safe navigation or hindrance to vessel traffic, traditional fishing operations, or other public access that may result from aquacultured live rock at the site;

(D) Describes the naturally occurring bottom habitat at the site; and

(E) Specifies the type and origin of material to be deposited on the site and how it will be distinguishable from the naturally occurring substrate.

§ 622.71 Recordkeeping and reporting.

(a) *Individuals with aquacultured live rock permits.* (1) A person with a Federal aquacultured live rock permit must report to the RA each deposition of material on a site. Such reports must be postmarked not later than 7 days after deposition and must contain the following information:

(i) Permit number of site and date of deposit.

(ii) Geological origin of material deposited.

(iii) Amount of material deposited.

(iv) Source of material deposited, that is, where obtained, if removed from another habitat, or from whom purchased.

(2) A person who takes aquacultured live rock must submit a report of harvest to the RA. Specific reporting requirements will be provided with the permit. This reporting requirement is waived for aquacultured live rock that is landed in Florida.

(b) [Reserved]

§ 622.72 Prohibited gear and methods.

Also see § 622.9 for additional prohibited gear and methods that apply more broadly to multiple fisheries or in some cases all fisheries.

(a) *Power-assisted tools.* A power-assisted tool may not be used in the Gulf

EEZ to take prohibited coral or live rock.

(b) [Reserved]

§ 622.73 Prohibited species.

(a) *General.* The harvest and possession restrictions of this section apply without regard to whether the species is harvested by a vessel operating under a commercial vessel permit. The operator of a vessel that fishes in the EEZ is responsible for the limit applicable to that vessel.

(b) *Prohibited coral.* Gulf prohibited coral taken as incidental catch in the Gulf EEZ must be returned immediately to the sea in the general area of fishing. In fisheries where the entire catch is landed unsorted, such as the scallop and groundfish fisheries, unsorted prohibited coral may be landed ashore; however, no person may sell or purchase such prohibited coral.

§ 622.74 Area closures to protect Gulf corals.

(a) *West and East Flower Garden Banks HAPC.* The following activities are prohibited year-round in the HAPC: Fishing with a bottom longline, bottom trawl, buoy gear, dredge, pot, or trap and bottom anchoring by fishing vessels.

(1) *West Flower Garden Bank.* West Flower Garden Bank is bounded by rhumb lines connecting, in order, the following points:

Point	North lat.	West long.
A	27°55'22.8"	93°53'09.6"
B	27°55'22.8"	93°46'46.0"
C	27°49'03.0"	93°46'46.0"
D	27°49'03.0"	93°53'09.6"
A	27°55'22.8"	93°53'09.6"

(2) *East Flower Garden Bank.* East Flower Garden Bank is bounded by rhumb lines connecting, in order, the following points:

Point	North lat.	West long.
A	27°59'14.4"	93°38'58.2"
B	27°59'14.4"	93°34'03.5"
C	27°52'36.5"	93°34'03.5"
D	27°52'36.5"	93°38'58.2"
A	27°59'14.4"	93°38'58.2"

(b) *Florida Middle Grounds HAPC.* Fishing with a bottom longline, bottom trawl, dredge, pot, or trap is prohibited year-round in the area bounded
